Develop your very own stencil using a Photo Resist technique. You will actually use a dark room technique to design your stencil and sandblast your artwork onto a mirror or a bevel. This technique is a great way to work with a more detailed stencil like a business logo, cartoon character, lettering or family photo.

You will need to bring in or email your black/white print or artwork by **Sept. 24** so we have time to prepare and approve your design for the photo process. It can be a photo, but it must have contrast and fit in a 8" x 10" space. Not sure? Talk to Steve about your design ideas and he will guide you in deciding what will work for this process. If you don't have any ideas, don't worry. We will have stock photo stencils you can use.

In addition to learning about stencil development we will cover some sandblasting basics.
