

Moonlight Madness Oct 7 & Oct. 8

Bonus Moonlight Monday

Can't make it for our Moonlight Madness sale on Saturday or Sunday? Stop by on **Monday (Oct. 9)** and see what kind of bargains we can tempt you with! We don't want to end all that fun after Sunday so we decided to leave most everything out for those after the sale bargain hunters. Who knows, Steve may be making new deals! But don't wait, the ghouls will have everything packed up by Tuesday.

Beginner Stained Glass Class

Join us for our next Beginner Stained Glass Classes starting **Tuesday Oct. 24, 6:30-9:00pm**. The class fee includes your beginner tools, a premium oil fed cutter (\$34 value) and your supplies for your first project.

We feel that if you start out with quality tools and a great glass cutter, your stained glass experience will be more enjoyable. The class meets one night each week for 5 weeks, and the fee is \$150. All we need to hold your seat in class is \$75 when you sign up.

In this class you will make 2 copper foil projects and learn everything you will need to do stained glass at home. Take a magical journey with us and make stained glass your favorite hobby!

Pssst. . . This is the perfect time to take the class because you will have enough time to make Christmas projects for your family and friends!

Sandblasting Class

Sandblasting and etching is so intriguing to most people. How do they do that? Well let us show you how!

In this one night class, you will cut your own stencil and etch the design on a beveled glass piece to be incorporated in your next stained glass project.

The class is **Monday Nov. 20, 6:30-9:00pm** and the fee is \$35. The class fee includes all the materials so just bring your imagination!

Looking For Class Ideas

Here at the Glass House we are always looking for new ideas & suggestions for future classes. Who better than you to come up with new ideas for us to use.

If we use your suggestion, you will get to take the class at a discounted price! If we get more than one person with the same idea we will draw a name for the discount!

Thursday Nite Club

Come join the coolest Night Club in the glass world! The Glass House has a new **Thursday Nite Club** that is fun, informal, and may be a bit wacky at times. Every 2nd Thursday, from 6:30-7:30pm we will have a discussion or a demo relating to glass.

It could be a product demo or new tricks to help your soldering. There may even be added discounts during that time. We will post each topic in the flier and at The Glass House in advance so you can plan on attending. You can also come on any Thursday, 6-8pm and work on your project or ask questions about problems you may have, on glass of course.

Now the particulars:

The Club fee is only \$10 per year and everytime you come to a 2nd Thursday meeting, you will get your club card punched. After 6 punches we will give you a \$10 gift certificate to spend on whatever you want in the store. You can come to as many of the 2nd Thursday discussions that you want for a full year. You can't lose!

Our next meeting is **Oct. 12** and we will be exploring the **New Morton Portable Glass Shop** and how it will make your stained glass world a better place! See the new features and changes that the Morton System has undergone.

The following meeting will be **Nov. 9** and our topic is **Cementing the Final Stage**. Some may fear Cementing but we will take you through the process and show you how easy it really is!

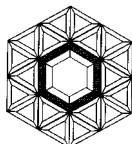

Only members will be allowed to participate in the Club activities. So don't miss out and join our exclusive Club today!

Important Glass House Schedule – KEEP HANDY !

Up Coming Events

Advanced Soldering Clinic 10:30-12:30 pm Fee \$20

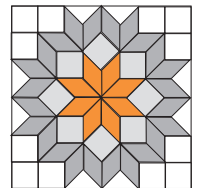

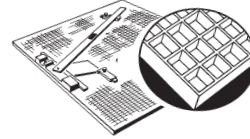

Join us for our next **Advanced Soldering Clinic** on Saturday, **Oct. 14**, 10:30-12:30. The fee is \$20. In this class you will learn different techniques to improve your soldering skills. We will also cover decorative soldering that will jazz up your next project. And, if that isn't enough, we will show you how to tune up your iron and talk about different types of irons. This class is a hands-on class! Show us what you don't like about your soldering and we will show you how to fix it. You will need to bring your iron, flux & solder. We will provide the rest!

Quilt Block Class 10am-1:00pm Fee \$25

Learn how to use your Morton Portable Glass Shop by cutting out a quilt block panel in this class! Each student will be instructed on the ins and outs of setting the system up and will cut their own quilt square design. Each student will need to bring their own Portable Glass Shop & glass cutting tools with them. You will also need to purchase your glass before class begins.

Pssst... You might want to bring a sack lunch!

12" x 12"

Get Fired Up Fusing Class 10:00-2:00 pm Fee \$45

Glass Fusing is hot and we have a class that is sizzling! We have designed this class to introduce you to the world of fusing. You will actually fuse a decorative glass tile in a kiln. Your tile will make a beautiful centerpiece for your next stained glass panel. In this class, you will learn the basics of kiln operation, fusing and pattern layout.

The class fee includes everything! All you need to bring is your glass cutting tools and maybe lunch.

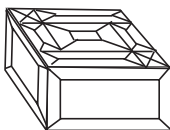

Lead Technique In A Day 10:00-2:30 pm Fee \$20

Learn the lead came technique during this one day class demonstration. The class will meet on Saturday Nov. 11, from 10-2:30pm.

You will get a step by step look at how a leaded panel is assembled. The class will be geared for the person who has experience with foil but isn't sure about using lead. We will discuss all aspects from initial pattern allowance and actual leading to soldering and cementing. This offering is designed to help those who are unable to attend our regular lead class. Time will include a 1/2 hour lunch break so bring a sack lunch.

Beveled Box w/ Decorative Soldering Nov. 18 10-2:30 pm Fee \$45

Never happy with your soldering? See how easy it is to take those messy solder lines and turn them into a work of art. Go beyond the traditional soldering methods and expand the creative potential of solder. Dress up your projects with beautifully textured lines and learn how to include glass beads to add interest.

This is a **hands-on** soldering class! You will actually make a beveled glass box and you will try out your new soldering techniques on it to make your box fancy! The class includes all of your bevels, which will need to be foiled before class begins. You will also need to bring your soldering iron and supplies and maybe even lunch. In this class you will learn about decorative soldering and how to make a glass box! Two classes in one! Space is limited so call today!
