## New Stuff

We have so many new colors, tools and books that can't be put into words in this amount of space so I will give you the short version. Just enough to pique your curiosity so that you feel the need to stop by The Glass House and see for yourself!

Steve has expanded the glass rack to include many new colors. He has add to our great selection of Fusible Dichroic glass that will make your mouth water. Fusible Dichroic glass can be fired in a kiln or used as regular glass in a project. When you hold it up to the light it tends to change colors and will add a real dazzle to any project!

Spectrum has added many new colors and textures this past year. You will love the Indigo & Pink Iridescent (6093-86iCC). We have a new clear Crackle glass that looks like the handblown Crackle but a fraction of the cost. Don't miss the new Orange Waterglass (171W) and Yellow Waterglass (161W) as well as the Orange Artique (171A).

Kokomo has a new deep brown Granite Catspaw (83GCP) that is so rich. It goes great with the new Uroboros Fawn Brown Mottled (20-918).

With over 800 colors and textures, that we stock regularly, it can be difficult to make up your mind when you are planning a project. But isn't having a choice from a huge selection a good thing?

Now that you have created your masterpiece, you need to put your John Henry on it right? We have a battery engraving pen that writes like an ink pen. Only it permanently etches in the glass. It comes with batteries and an extra diamond engraving bit for only \$9.99.

Are you grinding your fingers down to stubs when you're working on a project? We have the new Grinding Cookie that really works. It has a rubber ring at the base of the handle that holds the glass against the bit. Now you can grind and keep your finger tips too! The Creators of the Table Foiler have a new foil cutter, *The Magic Cutter*, that fits right in the roller and snips the foil. It is faster and easier to use than scissors.

There are so many new pattern book titles that will inspire you to start a new project. Stop by and check out these new titles: *Fanciful Filligree*, *We Are One*, *Beginner Patterns 2*, *Ornate Crosses* and the new 2006 *Calendar Lamps For All Seasons*.
