## Flier Issues

First let me start off by apologizing to our loyal customers that may not have gotten their flier in time for our big fall sale. Because of all the heavy political ads being mailed about the same time as our fliers, we took a back seat to the all important political mail. Unfortunately we weren't aware of this pecking order until after the fact.

To ensure that you don't miss out on any of our events or classes, we ask that you sign up for our email notices. We promise that we won't sell our email list to anyone and won't be a pest either. When the fliers are put on our website, I notify our email list of this and they can get their fliers before the snail mail arrives. (Now I know how they got this term of endearment!) So please call us with your email address or go on our website ([www.glasshousestore.com](http://www.glasshousestore.com)) and sign up for our newsletter) We appreciate your business and hopefully this will never happen again!

## One Stop Glass Shop

*Thanks* I was just reading in the newest **FREE** issue of Stained Glass News about why your local stained glass store is so important. Your store is a place that you can come in and ask questions about your projects or bounce off any ideas about the technical stuff. It is a place where you can go and look at glass and ask the professional's opinion at no charge. You ask questions about how a tool works and call for help if you have problems with your grinder or soldering iron. It is truly a place that everyone knows your name, except maybe Steve.

- The Glass House Has To Offer You:*
- \* **Over 800 colors and textures of glass IN STOCK!**  
*and that doesn't include all of the specialty art glass*
  - \* **3300 Bevel Clusters IN STOCK!**  
*More Clusters than most dealers*
  - \* **Over 200 colors of Fusible Glass IN STOCK!**  
*Add to that all of the other fusible products*
  - \* **Over 8000 Colored Bevels & Dichroic Bevels IN STOCK!**

We thank you for keeping your stained glass dollars here and we will work hard to come up with exciting new classes, new tools, new glass and new books so you can enjoy your hobby for many years!
