Photo Stencil Sandblasting Feb. 27 6:30-9:00 pm Fee \$45

Develop your very own stencil using a Photo Resist technique. You will actually use a dark room technique to design your stencil and sandblast your artwork onto a bevel. This technique is a great way to work with a more detailed stencil like a business logo, cartoon character or lettering.

You will need to bring in your black/white print or artwork by **Feb. 19** so we have time to prepare your design for the photo process. It can be computer generated or a drawing but it must have dark black lines, not shades of grey and fit in a 3" x 3" square space. Talk to Steve about your design ideas and he will guide you in deciding what will work for this process. If you don't have any ideas, don't worry. We will have stock photo stencils you can use.

We will talk about the basics of sandblasting but our focus will be in the stencil development.
