

Thursday Nite Club

Our next meeting is **Feb. 8** and we will unlock the secrets of how to use a curved forms to give your project more of a 3-D effect. We will also talk about form lamps and how the shape of the lamp is born.

March 8 we will explore the magical world of Kaleidoscopes and how easy they are to make. We all remember the hours we spent as kids looking at all the wonderful colors and the many designs. Now you can use your own creativity and bring back those

The Club fee is only

\$10 per year. We meet every second Thursday from 6:30 - 7:30pm, rain or shine. You can come to as many meetings as you like and after 6 meetings you will get a \$10 gift certificate. You can't loose! But you have to be a member to attend.

Your full service fusing center!

Start out 2007 with a Wacky Contest

Wacky 6000 Contest

Last year's Wacky Glass Contest was so much fun we decided to do it again. Only this time with a beautiful Dark Blue and White Baroque glass. We are looking for the best use of Spectrum's 603-9 *Dark Blue and White Baroque Glass*. It can be an original design or something that is out of a pattern book. You can make the project any size or shape, as long as you are able to bring it in for our judges to see.

To start you out, we will give you a **FREE** piece of this glass to inspire you in your project. If your creation is chosen as the "best use" of the glass, (determined by the judges) you will not only win a \$25 Glass House gift certificate, but your name will be immortalized in our fliers that are sent out all over the U.S.A. and even internationally. How cool is that?

So come in today and pick up your **FREE** piece of 603-9BQ (you will need to have the coupon below) and start creating today. **The contest will end May 5, 2007.** Good Luck!
